

BENJAMIN VASSAR, Architectural Intern, Design & Construction Drawings

Ben Vassar has worked for our office for the last three years as an Intern with excellent skill in AutoCAD, Microsoft Office, and Adobe Creative Suite. He currently attends the University of Michigan in pursuit of a Bachelor of Science in Architecture. He was responsible for the thorough documentation and contract drawings for the historic window replacements at the Americas Society at 680 Park Avenue, and for 37-06 82nd Street, Jackson Heights. He also contributed design and drawing work to several other projects, including the design for retrofit of the historic firehouse in Falls Village, CT. Ben assisted with archival research, product evaluation, site investigations and presentations for the Stone Court Development. For the past two summers, Ben supervised and taught high school seniors who were working in our office under the School Construction Authority's internship program.

Education:

B.S. Arch - The University of Michigan Taubman College of Architecture 2021
